General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The proportions of the given substance in the diet do not keep. 100% is not used in the so-called group. 75% of the given substance is used. this needs to be revised again.</p> <p>it may also be necessary to look at the microbial load of the substance used.</p> <p>it would be more appropriate to give links to other studies instead of giving results in the discussion section.</p>	The manuscript has been modified
Minor REVISION comments	<p>biochemical contents of other raw materials could also be given.</p> <p>The average weight increase statistics should be reviewed.</p>	
Optional/General comments	The English of the article should be corrected.
