

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_49808
Title of the Manuscript:	Effect of annealing temperature on the optical properties of TiO ₂ doped Fe ₂ O ₃ dye dissolve in ethanol solvent
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The topic is based on annealing temperature but the emphasis was on precursor concentration. 2. The methodology and results were not clearly described 3. Lot of typographical errors 	<ol style="list-style-type: none"> 1/ The subject explains the effect of temperature on the improvement of optical properties after doped to increase efficiency for use in thin film 2/ Results were reviewed and the work method was revised more clearly. 3/ Corrected language errors.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
