**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Corrections have been done in the Manuscript.                      Don't use we / our like words with in the research papers.                      Justification should be mentioned clearly.                      Methodology part should be written with sub titles as study design, period, area, etc.                      Subject numbers are not enough to this study. Because, statistical analysis can proceed above 30 or more numbers. So, can't conclude the final decision.                      Don't write as continuous paragraph in the introduction, methodology, &amp; results part. You have to modify number of paragraphs.                      Ethical approval, patient consent didn't mention.</p>	
<b>Minor</b> REVISION comments	<p>References are not enough. More than 50 references are important to maintain the standard of the research paper. If possible. References should be increased.</p> <p>Future suggestions and recommendation should be included.</p>	
<b>Optional/General</b> comments
