PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This research, though interesting, appears to be commonplace as the results are too glaring without any special examination. The use of statistical methods however helps. There are some grammatical mistakes pertaining to lack of concord and these must be corrected before the Ms can become publishable. I have included a tracked version with corrections and suggestions to help the Researcher improve upon the Ms. (See the tracked attached file) Correct all grammatical mistakes, concord, etc.	
Minor REVISION comments
