PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The abstract should be re-written including only the necessary information. For example it is not necessary to describe primer sequences in the abstract and methodology should not be included in the Result heading. The authors should also indicate why the AluI restriction enzyme was used. Since polymorphism was not observed a paragraph indicating why this enzyme was chosen will be useful. Minor English corrections were included in the manuscript	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
