

Editor's Comment:

Corrections are fine but I do not yet see any mention in the manuscript regarding the bulk (means the combination of the two drugs not formulated).

Sir, system suitability, linearity and analysis of standard (bulk) were performed with bulk sample, further more spiking of the standard with dosage form was done with bulk sample. Standard chromatogram also put into the manuscript.

Author's Feedback

It is your pleasure to ask good question sir, thanking you sir.
