

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	<b>Ms_JPRI_36962</b>
Title of the Manuscript:	<b>Phytochemical Composition of Aqueous and Ethanolic Extracts of Piper guineense, Cassia alata, Tagetes erecta and Ocimum gratissimum and their Implication in Plant Disease Control</b>
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>Use Vancouver style of citation using serial numbers in squared brackets for the citations.</b></p> <p><b>Line 55: Put a statement for the identification and authentication of the plants, giving the allotted voucher number.</b></p> <p><b>Line 48: State the aim and objectives of the study in the last paragraph of the introduction section.</b></p> <p><b>Line 67: Use "Extraction and Quantitative Phytochemical Screening of the Test Plants' Extracts"</b></p> <p><b>Line 68: The methodology of the plants extraction is missing</b></p>	
<b>Minor</b> REVISION comments	Line 178: Use "ANOVA"	
<b>Optional/General</b> comments	<p>The manuscript should be categorized as a <b>Short Research Article</b>.</p> <p>The introduction section should capture a brief description of the test plants and their English or local names for easy identification in the study area.</p> <p>The discussion laid more emphasis on the antimicrobial properties (which is not one of the objectives of the study) of the test plants instead of their phytochemistry.</p> <p>Looking into the scope of the study, methodology and the presented results, the title should be shorted to: <b>Phytochemical Composition of Aqueous and Ethanolic Extracts of Piper guineense, Cassia alata, Tagetes erecta and Ocimum gratissimum</b></p>
