

**Editor's Comment:**

I would like to respond in regards to the Manuscript Title: *Megaprojects - Socioeconomic and Environmental Dynamics in D. Pedro I-Tamoios Road Axis, São Paulo, Brazil*

I have gone through the paper as well as on comments from each of the reviewers.

The Authors have tried to accommodate all the reviewers' comments.

There is a lot of improvement on this manuscript from the first draft to this very last copy.

Therefore, I am academically satisfied to recommend this paper for publication.
