

Editor's Comment:

The authors have addressed most of my previous comments except for the most critical one and that is:

2. By the way, most of the tables and figures are not referred to in the text.

The authors should insert in the text where each figure and table is referred to, for example by using "(Table 1)", "(Figure 1)".

If the authors can revise the final version according to my last suggestion, I will agree to accept this manuscript for publication.
