PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>1 - The literature review should be update: 12 out of 21 cited with more than 10 years of publication.</p> <p>2 - Were the analyzes performed in duplicate or triplicate? It was not clear in the methodology.</p>	<p>Recent references have been added in the manuscript</p> <p>Replication done in twice</p>
Optional/General comments	The work proposal is relevant and important for the control over the fermentation processes. The article was very well written with well defined goals, I recommend replacing the old references and updating the formatting.	<p>Thank you</p> <p>Corrected as suggested</p>
