<p>Which are the great actions of Government to help farmers? Participative diagnostic? We believe that it is not the main situation: However, due to lack of farmers' active participation in agricultural research to bring innovation, food security is not yet achieved in the country. In this way, they will not achieve the food security. Only investigating. Carry out participative research in loco and create productive demonstrative units, working farmers and researchers together.... practically... feel what they are feeling and and realize together. Change the Title of the article: add: and look for agricultural development and food security. Needs Grammatical revision.</p>	<ul style="list-style-type: none"> • I included the great actions of the government to help farmers in the text and highlighted in yellow colour. • I modified the title adding the noble of comment of the reviewer! • I made grammatical revisions as per the noble comments!
