

Editorial comments:

Although the author has considered all comments, but I found some mistakes and put comments as track changes in the attached manuscript.

Author's feedback:

The revised paper was traced to the 6th of August, 2015 and documents seen and corrections were effected as follows; all corrections are made at the first revised version

1 Reference added in first figure in consonance with table 1 and at the main reference

2 Journal of Medicine corrected initial letters capitalized

3 1992 and 1976 completed at the main reference

4 Journal of Adolescent Health- the initial letters capitalized

5 Reference number 15- initial letters capitalized

Thank you very much for your patience with me, am most grateful.
