(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author does not provide statement about bioethical commission to conduct this research	The original research paper was underlined the ethical principal when dealing with human being
Minor REVISION comments	Usage of novel language concerning the diagnosis of patient, please change terminology of "diplegic cerebral palsied children" Not necessary to describe GMFCS, this is well-known Not shown comparison this research results with other researches Not written limitations of study	-Diplegic cerebral palsy children is the second common form of C.P and it is a vital term in the paper -GMFCS i describe it briefly as any method of evaluation -I think it is the first search about upsee
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
