|-------------------------------------|---|--|
| <b>Compulsory</b> REVISION comments |   | We appreciate the affirmative comment and suggestion of the reviewer.  |
| <b>Minor</b> REVISION comments      | This is a very well written paper. On the other hand there are some points to discuss. What are the specific characteristics of forestry products sector in Turkey? Why did you conduct this research on this specific industry? Plus, you should provide the reader with some comments related to the characteristics of the industry. | We added the below given part in the introduction:<br>"The forestry products sector has been assessed as a subsector of agriculture in Turkey. However, the main title of agriculture has created a general point of view in terms of incentives, taxation, and creditors' assessments or policies along with the ease of access to finance. Thus, forestry product sector like every subsector, could have been neglected upon its sector-specific characteristics [8]. We, therefore, decided to reveal the evidence of such a negligence which might be misleading, and which could alter the decisions of financial management and the means of creditors at least." |
