PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Several minor points: 1. L5 and L33, the word "same" is an inaccurate descriptive word. Should be removed completely. 2. L55, "serum" should be removed. Crystalloid is not a serum 3. L63 to 64, it is very confusing sentence, need to rewrite. What is nisosigine? Is it neostigmine?	1."same" word is removed 2. Instead of the word "crystalloid", the normal serum level of 0.9% was used 3. it is typos error, neostigmine is correct Thanks
