PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Sample size; Comment on why do you use only this small sample? Do you think it is a representative sample of that community? 2. What are the possible confounding factors? Add them and explain their impact.	Corrections made to Ms_JPRI_46798 1. Sample size was modified with explanation on use of 70 patients in an observational study. Yes, this represents the effect on biochemical parameters in the main population. 2. Confounding factors were explained and it formed part of the exclusion criteria.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
