PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript can be considered as a “mini review” focusing on the utilization of polymyxins as inhalation for respiratory tract infection, which might be more useful than iv. application.	As the author, I have focused more on the use of polymyxins nebulisation in RTI than IV administration. I have prepared this article considering as a 'Review Article' and I will be very pleased if you kindly consider it as a review article.
