PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Page 2 References for table depicting deficiency of vitamins should be added The references cited in the text do not match. For example In line 19, it's mentioned 'WHO states "Nutrition is the science of food and its relationship to health"[1,2]' The reference number 1 and 2 are articles which talk about PEM instead of the nutrition definition.	Its mentioned above No 9. Its mentioned about this definition in these articles.
Minor REVISION comments	The abstract sentences should be restructured as the message is not very clear Line 22, refer's should be replaced by refers The text has grammatical errors which need to be corrected, for example in line 63 'Vitamin C as antioxidant' should be written as 'Vitamin C as an antioxidant'	Correction made
Optional/General comments	The manuscript overall doesn't give any new information nor is there an attempt to quote any new studies or new aspects related to nutrition. The references cited are also incorrect.	---
