**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	On line 284 there is an assertion of value judgment that I recommend to be withdrawn.	
<b>Minor</b> REVISION comments	The problems encountered with the writing are related to the lack of spelling and grammatical revision. Many missing commas and misspelled words. I made some corrective proposals throughout the manuscript, but I recommend a professional revision so that these aspects do not disturb the appreciation of this interesting work.	
<b>Optional/General</b> comments	The text presents an unpublished research, with well-structured methodology and interesting conclusions about the motivations for migration among the inhabitants of Mali. The chain of ideas is well constructed and, certainly, the data can be appreciated not only from the academic point of view, but also from the policymakers in Mali.
