

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Research and Review in Physics
Manuscript Number:	Ms_AJR2P_47708
Title of the Manuscript:	A play with four virtual gravitational constants (Associated with the four basic interactions)
Type of Article:	short communication

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I tried a fast look, The author has made a new type of attempt to combine physics, he defined the some abbreviations used in his paper well and good. he added some explanations nicely.</p> <p>What is not still palatable is how he got equation 1 came, is it empirical or derived based on some unification theory? Let him explain the starting point... For understanding of the paper, and for checking the validity of this paper, this is required.</p> <p>Best</p>
