

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Research and Review in Physics</a>
Manuscript Number:	Ms_AJR2P_47708
Title of the Manuscript:	<b>A play with four virtual gravitational constants (Associated with the four basic interactions)</b>
Type of the Article	<b>short communication</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The value of interaction constants in physics is difficult to overestimate. Their value with great accuracy determines the existence of our Universe. The questions of interaction constants are connected both with global phenomena of physics and with phenomena at small distances, such as quantum gravity. Therefore, the searches for relations between the constants of the four types of interactions are important and relevant.	
<b>Minor</b> REVISION comments	It would be important to consider in detail such theories as microscopic quantum gravity and a combination of the fields inherent in the unified description of the four interactions.	
<b>Optional/General</b> comments	The work is actual and important.
