| | **Reviewer's comment** | **Author's comment** (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|---|---|
| **Compulsory** REVISION comments | The authors submitted very interesting manuscript, which deals with a content of various heavy metals in Nigerian herbs. The content was analysed by atomic absorption spectrophotometry. This method used is very effective for the metal content determinations in various type of samples. Furthermore, the authors assessed cancer and noncancer healthy risks, which can be caused by heavy metals. Therefore, the manuscript is timely. <br><br> The authors used adequate methods. The results are supported by obtained data and they are properly discussed. | |
| **Minor** REVISION comments | The text would benefit from an extensive edition. I found many typing errors. | |
| **Optional/General** comments | | |
