**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The subject of the manuscript is useful and seems adding to the existing knowledge in bioremediation of industrial effluent. However, the clarity of the manuscript is very poor. The sentence constructions very poor grammatically in most cases. Problem with spelling as well. There is a need for thorough rewrite of the manuscript.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
