**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The authors need to address by integrating wavelet entropy based spider web plots and probabilistic neural network for the classification.</li> <li>2. The spider web plot is a geometric construction drawn using the entropy of the wavelet approximation components and the areas should be examine as feature set for classification.</li> <li>3. Probabilistic neural network provides a general solution to the pattern classification problems and the classification accuracy should be cross examine.</li> </ol>
