PART 2:	
FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
The author has to write "biodiesel" (line 145) or "bio-diesel" (line 146). In my previous revision, I indicated that the content between line 143 to line 220 must include references. It wasn't completed. The sections: "bioenergy conversion of algae", "algae biodiesel", "algae harvesting and strains" needs references in each paragraph. The reference of Line 125 is incomplete (scott....). There are two "figure 2" in page 5 and 8, both without references.
