

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Pharmaceutical Research International</a>
Manuscript Number:	<b>Ms_JPRI_47476</b>
Title of the Manuscript:	<b>In vitro study the impact of algae extracts as anti-proliferative against cancer cell line</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The drug discovery using natural products such as medicinal plants or marine organism is an important area of current research. However, results presented in the submitted manuscript is not convincing to me. For example, no data on the composition of the extracts by using HPLC or other method is presented. This in my opinion is necessary. Secondly, no error bar in figures or no $\pm$ s.d. values in tables are presented, this is also essential in my opinion. How many times these experiments were performed? Thirdly, the manuscript is full of grammatical and typographical errors that need sincere attention. The English language needs substantial improvements. Many places it is not clear what authors would like to convey. Help from a professional English proof reader would be beneficial.	
<b>Minor</b> REVISION comments	Figure quality is generally OK but in many places the text on the Y-axis is not readable because of overlapping.	
<b>Optional/General</b> comments
