

Editor's Comment:

I have gone through all the stages for evaluating the manuscript under review and my comments are as follows:

1. All the reviewers have made scientifically sound comments on the manuscript and I do agree with their comments.
2. The authors have complied with the instructions of the reviewers, and have improved the manuscript both grammatically and content wise.
3. None of the reviewers rejected the manuscript after the final corrections were done by the authors of the manuscript.

Therefore, I hereby recommend that the manuscript "Comparative Study on Proximate, Mineral and Anti-Nutrient Content of Composite Roasted Corn Flour with its Traditional Roasted Corn Counterpart for Homemade Complementary Foods" be accepted for publication in "Asian Food Science Journal".
