My decision is “reconsider after in-depth review”

I would like to ask authors about re-writing the text concentrating only on main points of the study, that should significantly shorten the paper. Moreover, fig, 7, 9, 11 need some improvements. From abstract remove also numbers, now it looks more like a raport – it is not a raport, it is an abstract providing the most important findings, some kind of advertisement of the paper.

Please, remove also aspect of religion from the study – it is not bringing anything, and we have a right to believe (or not) in any religion.
