

Editor's Comment:

I read the attached manuscript and the reviewer's comments. I found that the author did not care about journals formate especially the reference style and the figure resolutions.

I would like to suggest the author should:

1: revise the Figures with higher resolution as at least 300dpi

2: revise the references as per journal formate

The overall idea for the manuscript, on the basis of study and results, can allow me to ACCEPT the paper for publication.
