

Editor's Comment:

A few residual errors in capitalizing (Row 20, 60, 69) and typing error (Row 63) are recommended to correct.

Manufacturer info for phisio (Row 62) and for implant fixture and abutment (Rows 65, 68) are recommended to provide.

It is recommended to place manufacturer info within parentheses next to the product type (Row 73).

It is recommended to provide decoding of the abbreviations in first mention such as CBCT (Row 57) and OPG (Row 84).

It is recommended to place the reference number just next to the author name (Row 88, 93) where the author name mentioned.

The subheading "OTHER TECHNIQUE" is not matching with the scientific paper composition. Removal of this subheading and placement of the paragraph within the discussion section are recommended.

Superposing the multiple pictures (Row 193) are not recommended.

Removal of the fig 3 with legend is recommended due to it is not necessary and disturbing picture standardization.
