

Editor's Comment:

The work appears to be a replica of work done by A. Peter and S.K. Sharma with title: Use of Azadirachta indica (AZI) as green corrosion inhibitor against mild steel in acidic medium: anti-corrosive efficacy and adsorptive behavior. Int. J. Corros. Scale Inhib., 2017, 6, no. 2, 112–131

Authors claimed their publication has many differences. But for me, I think it is strange why they did not cited this closely related article in the original manuscript. therefore I personally suggested no accept.

But if both reviewers strongly agree accepting, please ignore my personal idea.
