

Editor's Comment:

My decision is: Accept after minor revision.

The final decision for manuscript number 2019 JEA 48459 entitled 'Genotype-by-environment interaction and stability analysis in grain yield of improved tef (*Eragrostis tef*) varieties evaluated in Ethiopia' written by Habte Jifar, Kebebew Assefa, Kassahun Tesfaye, Kifle Dagne, and Zerihun Tadele

Following evaluation of all documents related to the manuscript I agree with the Reviewers that the manuscript is acceptable for publishing in Journal of Experimental Agriculture International. However, minor revision is still needed.

- Keywords must be changed, because keywords should not contain abbreviations which may be not commonly known, and keywords should not be the same as words already used in a title.
- According to the Journal requirements COMPETING INTERESTS and AUTHORS' CONTRIBUTIONS should be added.
- Please check the beginning of the caption of Figure 2.
