

Editor's Comment:

Please, find the latest editorial decision and few comments on the revised manuscript ms_JEAI_48848_v2 attached herewith this email.

The revised manuscript can be considered for publication by JEAI provided minor corrections are undertaken and complementary information needed are given.

- (i) Few errors identified and highlighted in the text are corrected.
- (ii) The distance between two sown cotton seeds in row is given
- (iii) Names, dosages and frequencies of chemical products used for phytosanitary treatments are provided in Line 84.
