

Editor's Comment:

I have read both reviewers comments. However, i still believe there is a room for improvement. Major weaknesses of this paper is at literature and methodology section. Author should highlighted a "research gap" in the topic being studied (Women Entrepreneurship & Empowerment). Even though it is conceptual a (qualitative nature), the author should discuss the methodology in detail. For example, how many papers have been reviewed and criteria in selecting the papers/articles reviewed.
