

**Editor's Comment:**

I advise the publication of the paper if the authors will correct the papers. In this new version of the paper there are many errors. The references are not completed with all required information by any journal (see for example the references 17 and 20:

<https://pdfs.semanticscholar.org/008f/abdf45b406904883ff1aed86d68059d6a438.pdf>

<http://www.m-hikari.com/asb/asb2015/asb1-4-2015/khanASB1-4-2015.pdf>

In conclusion the paper must be with correct information.

In attach, I tried to arrange some missing of the authors.
