<ul style="list-style-type: none"> Figure 1 and 2 which were presented in the original submission and which were referred to under result and discussion is missing in this revised version. Author should add them. Details of the statistical analysis presented in this revised manuscript is not necessary and should be expunged. The author should simply state the method used for the statistical analysis. Some areas still need grammatical check. See my comments on the revised manuscript. 	<ul style="list-style-type: none"> Figure 1 and 2 were based on the recommendation of one of the previous reviewers. However, the paragraph which referred to figure 1 in the result has been revised. Details of the statistical analysis has been removed. Grammatical check done accordingly and comments duly attended to.
