

SDI Review Form 1.6

Journal Name:	Asian Journal of Agricultural and Horticultural Research
Manuscript Number:	Ms_AJAHR_48869
Title of the Manuscript:	Influence of different 1-Methylcyclopropene (1-MCP) concentrations and storage conditions on the physico-chemical properties of (Solanum lycopersicum L.) on fruit quality and shelf-life.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Title too big, try reduce. Used keywords are present in the title, this is not recommended. Describe the purpose clearly at the end of the introduction.	Keys words : 1-MCP, tomato cultivar, mature green and shelf-life What I meant was that tomato is a perishable fruit and because of that there is a great annual loss as a result of spoilage, (that's if care is not taken or some measures are not taken to prevent it. And is because of that there is a chemical which binds the ethylene receptors in the fruit thereby delaying its ripening which most atimes leads to spoilage. That chemical is the 1-MCP. The purpose of the work was to see the influence different 1-MCP concentrations and different storage conditions could have on the shelf-life and quality of tomato.
Optional/General comments	Very well written work with very relevant information! Congratulations !	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
