General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	-What is PLT in table 3? -Is total protein significantly affected? If so then check you statement in line 75 -Rephrase the sentence 'were poorly affected and showed low significant decrease' - to "the values decreased but not statistically significant"	PLT is platelets OK
Minor REVISION comments	Line 20: Remove 'are' and 'your' (your brain) 22: change 'after you take it' to 'after it is taken' 55: rephrase the phrase 'ions levels in was' 67: remove 'were' in the phrase 'were appeared' 70, 71: add 'significantly' after "Increased" 73, 74: remove the brackets '(p<0.0001)'	All the request were made in the revised manuscript
Optional/General comments	The author seem to have problems with English Language. There is need to correct a lot of capitalisation error. Some names are started with small letters and some abbreviations are also not in capital letters. These needs to be corrected	Thanks were made the request in the revised manuscript

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
