

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_47084
Title of the Manuscript:	Ecological Approach of Plankton Responses to Water Quality Variables of Tropical River, South-eastern Nigeria: A Bio-indicator-Based Community Assessment of Idundu River.
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Manuscript is too long. Present style of the manuscript is not good. Author failed to explain The Principal Component Analysis to compare the results.	Manuscript has been re-written and the Principal Component Analysis has been explained in detail. The paper is too long and yet you are looking for more explanation for the Principal Component Analysis.
