

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Biochemistry
Manuscript Number:	Ms_AJRB_48807
Title of the Manuscript:	Activity coefficient of solution components and salts as special osmolyte from Kirkwood-Buff theoretical perspective
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This paper deals with the Activity coefficient of solution components and salts, it is fundamental theoretical study on physichemistry, I support it to be published in the journal after minor revision. 1, all tables are in three-lines f Rmat; 2, the measurement methods have not clearly described or references;	Thank you. The tables are redrawn and the equations adapted for calculation in the theory section are now, specified in the method section. No instrumental measurements' such as density were taken, rather theoretical approaches were adopted.
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
