PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article is relevant and its results are important not only for Nigeria, but also for other countries of the world. Interesting mathematical methods of type MATLAB 2015 for Windows are used to study the issue. The results are mathematically sound, theoretically and practically interesting. True, in our opinion, one of the most important questions of the effectiveness of the fight against corruption is the development of the economy and the corresponding increase in the well-being of the population. In addition, the need for democratic change at all levels of public administration is important. Therefore, the article is plan.	Okay
Minor REVISION comments	It is necessary to emphasize the features of the mathematical approach and the need for more complex methods of studying the issue of the fight against corruption.	Done
Optional/General comments	The article is interesting, actual and important. The mathematical method is necessary and must be improved.	Noted

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
