FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>The authors have not provided the ethical committee approval number for their study protocol which needs to be included in the manuscript. Just a mention that the studies were examined and approved by the ethical committee doesn't suffice.</p> <p>This protocol approval number is a must OR you must have got an approval letter which can be shared for this purpose.</p> <p>Secondly the letters abcdef etc. in the tables have not been corrected. The comment was about the table text material and not about the table caption.</p>	<p>Ok. Thank you. I do not think this is a problem. The research/ethics committee approval/file number is: RSU/VC/APU/74/VOL.VIII/104. The letter is attached herein for your perusal.</p> <p>Ok. Done.</p>
