

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Surgery
Manuscript Number:	Ms_AJRS_49169
Title of the Manuscript:	Comparative study between classic abdominoperineal resection versus sphincter saving techniques for treatment of low rectal cancer
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The study needs to be tested in large groups. Both of the APR and the ISR groups (either group contains 10 patients) are small. It would be better to specify this topic in the manuscript.	I agree as it is a preliminary study and stated
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
