PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. I suggest the change of the topic to: Evaluation of some tomato genotypes to some insect pest infestation, growth parameters and chemical properties. This is because, the work captured many insects NOT only fruit borer as in the topic. 2. Alternatively, the former topic can stand. All other insects mentioned in the study should be removed. There wasn't any table on them eg Aphid. 	Corrected as per suggestion. Aphid part is deleted.
Minor REVISION comments	<ol style="list-style-type: none"> 1. The author should maintained uniform referencing in the text. This Saimbhi <i>et al.</i> or Dod and Kale [13] (1997) 	References is corrected as per journal's rule.
Optional/General comments		Thank you very much for reviewing the manuscript.
