EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1)"Polyphenol oxidase (PPO) and Peroxidase (POD) are widely present in many fruits and" should be rephrased to "Polyphenol oxidase (PPO) and Peroxidase (POD) which widely present in many fruits and"</p> <p>2) Final unit should be stated for all enzyme activity evaluation assay</p> <p>3) Result & Discussion: Completely lack of discussion by comparing to previous reported findings, justify the reason behind the current finding, limitation of study. Lack of latest references (within 5 years) in this section.</p> <p>4) Effect of FP on MCW section lacked statistical labelling</p>	<p>1) Corrected</p> <p>2)It is expressed only in % relative activity. It is also included wherever necessary.</p> <p>3) RF is a novel technique , very less research work reported on radio frequency treatment on enzyme inactivation. Hence discussion part is made to discuss the comparison between two methods adopted.</p> <p>4) Labelling has been done.</p>
