PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	All the corrections marked in the text need to be incorporated. Results and discussion part need to improve using more supportive references in other breeds. The period of data used was up to 2013 seems old data. If possible update the data till date in order to increase the population size to improve the authenticity of the result.	<ol style="list-style-type: none"> 1. All the corrections marked in the text have been incorporated in the main manuscript (highlighted in yellow color) 2. Supportive references in this context for this goat breed is very less. 3. Update of the data is not possible, because the study was conducted under a foreign funded project and had been closed after 2013.
<u>Minor</u> REVISION comments	Many sentences need to improve grammatically.	Grammatical errors have been checked and corrected.
<u>Optional/General</u> comments	The research work is of general importance may be useful for field applications. However the study needs to conduct on very large population size.
