**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

**PART 1: Review Comments**

|                                     | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)                          |
|-------------------------------------|--|--|
| <b>Compulsory</b> REVISION comments | <b>The text refers to a paper</b> [S. Paganelli et al., Ca' Foscari University, Venice, Italy, paper submitted to ChemistrySelect]. This paper has not yet been accepted for publication and readers might not be able to access the paper in the future in the event that ChemistrySelect rejects the manuscript. I would prefer that the author doesn't use this ChemistrySelect manuscript as part of the references. | The work submitted to ChemistrySelect has been now accepted even if not yet available. I modify the text consequently, introducing this new reference [8] and changing the following reference numbers |
| <b>Minor</b> REVISION comments      |  |  |
| <b>Optional/General</b> comments    |  |  |

**PART 2:**

|   | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
