[2] Wrong abbreviated journal name in reference part	I changed as required
[3] Journal name must be written in abbreviated name. Please read author guideline carefully.	I changed as required
[4] Wrong journal name in reference part.	I changed as required
[5] Please remove appendix if possible.	In my opinion it is not possible to remove the appendix because the figures related to the characterization of the new catalyst are important to understand the text. If the Editor requires to eliminate the Appendix I have to change completely the text
