

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">European Journal of Nutrition &amp; Food Safety</a>
Manuscript Number:	<b>Ms_EJNFS_48436</b>
Title of the Manuscript:	<b>PREVALENCE AND DETERMINANTS OF MALNUTRITION IN UNDER FIVE CHILDREN IN EGUME, KOGI STATE, NIGERIA</b>
Type of Article:	<b>Original Research Article</b>

**PART 2:**

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
I have carefully gone through author's reply to my comments. I appreciate tauthor/s for revising the manuscript. Further, I agree that socio-economic attributes of mothers have been described. When I look at discussion part on these 'attributes vs nutritional status', no doubt, findings are beautifully presented and discussed, but author/s has again escaped adding cross tabulation of data on these variables, which is a prerequisite.	Done as appropriate.
