|                                     | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| <b>Compulsory</b> REVISION comments | This is a very interesting paper correlating markers like von Willebrand and PAI-1 with levels of HbA1c in patients with type 2 DM.<br>The authors manage to show that there is a positive correlation that can lead to higher risk of coronary heart disease.<br>The method is described in detail and comprehensively. The authors made all the evidence on which the study is based clear and fully available in the manuscript.<br>I accept this manuscript for publication as it is. | Thank You   |
